VOICE-OVERS (selected)

Rich and dynamic. I can transform potentially dry scripts into engaging reads. With or without an authoritative edge, my natural speaking voice is tonal and can sound friendly, smooth, funny or sarcastic. My character reads can be silly, dark, edgy or creatively horrific. Additionally, I have performed voiceovers and ADR loops for a number of independent films across the country.

I have extensively studied voice and theatre since age 12 and trained, among other places, the University of the Arts in Philadelphia under Neill Hartley and Suzanne Case. I spent over a decade in major market radio as on-air talent at modern rocker Y100 in Philadelphia and various stations under Clear Channel and Nassau Broadcasting banners.
